

3rd Annual European Congress on Immunotherapies in Cancer™

21-22 September 2018

Hilton Barcelona
Barcelona, Spain

Call for Poster Abstracts!

The program chairs invite you to submit your abstracts for the 3rd Annual European Congress on Immunotherapies in Cancer™. Share your research or best practices with your peers.

Follow this link to submit your abstract:
Gotoper.com/ECICAbstracts

The deadline for submission is 1 September 2018

Abstract submitters receive complimentary registration - Use code ECIC18ABS

Event Overview

The European Congress on Immunotherapies In Cancer™ is a 2-day comprehensive and interactive program focused exclusively on immunotherapies and their practical application to the management of cancer. This unique, intensive and interactive program will provide a comprehensive review of key data sets that are most relevant for the clinician who manages some of the most difficult-to-treat forms of cancer. The program will focus on scientific advances, recent clinical trial results that shape current and evolving uses of these approaches, proactive methods to monitor and mitigate treatment-related adverse events, current and emerging testing methods, and multidisciplinary team approaches to optimize the use of immunotherapeutic strategies to treat cancer.
